   a. keep b. give c. let d. bring

2 Read and complete the dialogue with the words from the box :

capital – Governorate – Upper Egypt – ships

Yara : Hi, Yassin. Where do you live ?
Yassin: I live in Alexandria (1) ....
Yara : Why is it important in Egypt ?
Yassin: A lot of (2) .... sail in and out of the port.
Yara : How many people live in Alexandria ?
Yassin: About 5.2 million people.
Yara : Do you know that Alexandria used to be the capital of Egypt ?
Yassin: I know but now Cairo is the (3) .... city of Egypt.

3 Read the following text and answer the questions below :

Natural resources are materials that we get from nature. People use these materials for different purposes. Renewable resources can be naturally replaced when they **run out**. So, potatoes are a renewable resource because we can grow more. Meat is also a renewable resource because farmers can raise more animals for you to eat meat. Wood is renewable too. Also there are non-renewable resources. These are things like plastic, metals, and petroleum. Once we have used all of them up, we can't get any more here on Earth.

A. Choose the correct answer from a, b, c or d :

1. The main idea of the text is about " .... " .
   a. Resources b. Wood c. Metals d. Sun
2. The underlined phrase "**run out**" means ....
   a. start b. grow c. use d. finish
3. Natural resources are materials from ....
   a. shop b. internet c. nature d. market

B. Answer the following questions :

4. What are non-renewable resources ?

....

5. What renewable resources can be found in your home ?

....

4 The Reader

A. Read and write T (True) or F (False) :

1. Zeinab's Grandpa likes sewing lotus flowers and geometric patterns. ☐
2. Doha invents things all the time. ☐

السؤال الأول فى الورقة الامتحانية

1 Listen and choose the correct answer

A. We can't destroy energy. We can only change it from one kind of energy to another kind. This is called transfer of energy. When we use solar panels to collect sunlight, the solar energy is turned into electrical energy. When you use this electrical energy for a television, it is now mechanical energy.

B. Egypt is a country with a very long and interesting history. People started to live near the Nile about 9,000 years ago. At first, there were two separate areas. Lower Egypt was in the north. Upper Egypt was in the south. In about 3200 BCE, one pharaoh joined these two parts to unite the country of Egypt.

- **Listen and choose the correct answer**

I am Zein. I am going to tell you about my village. It is a very traditional place. My village is in the desert so it is an isolated place, too. We have a lot of services close to my family's home like shops, workshops, and my school.

14 Luxor Governorate
Luxor Educational Directorate

- **Listen and choose the correct answer**

We use our respiratory system when we breathe. We breathe in air through our nose. In the lungs, the oxygen in the air is passed to the blood. Our heart pumps blood around our body.

15 Aswan Governorate
Aswan Educational Directorate

- **Listen and choose the correct answer**

Primary colors are red, yellow and blue. We can't make these colors by mixing other colors. We make secondary colors by mixing the three primary colors in different amounts. For example, we can mix red and yellow to make orange. The secondary colors can be made by mixing primary colors which are nearest to them on the color wheel. Adding black to a color makes it darker, and adding white makes it lighter.

Listening texts

Exam 1

We use our digestive system when we eat and drink. We chew and swallow food, then it goes to our stomach. In the stomach, a special liquid changes the food into energy and nutrients that we need in our bodies.

Exam 2

We use our respiratory system when we breathe. We breathe in air through our nose, and it goes to our lungs. In the lungs, the oxygen in the air is passed to the blood. Our heart pumps this blood around our body.

Exam3

Mammals have hair or fur on their bodies. They are warm-blooded. They feed their babies with milk and most of them give birth to their babies. They don't lay eggs. Humans are mammals. Most mammals live on land, but some live in the sea, such as whales and seals. Bats are the only mammals that can fly.

Exam 4

Mammals have hair or fur on their bodies. They are warm-blooded. They feed their babies with milk and most of them give birth to their babies. They don't lay eggs. Humans are mammals. Most mammals live on land, but some live in the sea, such as whales and seals. Bats are the only mammals that can fly.

Exam 5

Fish live in water and take in oxygen through their gills; they can't breathe air. They are cold-blooded and they lay eggs. They also have scales and they use fins to move. There are thousands of different types of fish in all water habitats - saltwater, freshwater and wetlands.

Exam 6

Reptiles are cold-blooded. This means that they have to spend time in the sun to keep warm. Most reptiles have four legs, except snakes who don't have any. They don't have hair or fur. They have scales. In addition, all reptiles lay eggs. Most reptiles live on land. Some can live in rivers or the sea, such as turtles, but they come onto land to lay their eggs.

exam 7

Folk musicians from Upper Egypt play Saidi music. This type of music uses string instruments such as violins, and wind instruments such as the oboe. Singing and drumming is also a key part.

exam 8

I'm Fares, and I live in the Red Sea Governorate. It has a beach which is over 1,000 km. It's a very popular place to visit for scuba diving and water sports.

Exam 9

I live in Alexandria. It's a beautiful city on the Mediterranean Sea. As you might know, it's the second largest city in Egypt with a population of more than 5 million people. It has an important port and there is a lot of industry here too.

Exam 10

I live with my family in an apartment in a neighborhood called Amrya. There are 6 people in my family: my parents, my grandparents, my brother Magdy and me. Our apartment isn't big, but it isn't small either.
